DETAILED ACTION

Response to Arguments

1. Applicant's amendment, filed 10/5/2004, with respect to claims 18, 32 & 33 have been fully considered and are persuasive. Accordingly, claims 18, 19, 24, 25, 30 and 31 are allowed as set forth below.

Allowable Subject Matter

2. Claims 18, 19, 24, 25, 30 and 31 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 18 and 24, the prior art of record fails to teach or fairly suggest the combination of all limitations as required in claim 18 that includes the limitations "...said image sensor being capable of randomly selecting one or more pixels to be read-out from said plurality of pixels;... said second operation is an autofocusing operation to obtain focus in accordance with a second pixel pattern in said captured image; and said second pixel pattern has a predetermined area having a *higher density of pixels-to-be-read* than the other areas of said second pixel pattern." Claim 24 is allowed as being a method claim of the apparatus claim 18 for the similar reason.

Regarding independent claims 30 & 31, the prior art of record also fails to teach or fairly suggest the combination of all limitations as required in claim 30, including the limitations

Art Unit: 2615

“...said image sensor being capable of randomly selecting pixels-to-be-read; a pattern selector for selecting a first pixel pattern in accordance with a recording operation to record a captured image in a recording medium, said pattern selector further selecting a second pixel pattern having a smaller number of pixels- to-be-read than said first pixel pattern in accordance with an autofocusing operation on the basis of said captured image, *said pattern selector further selecting a third pixel pattern having a smaller number of pixels-to-be-read than said second pixel pattern in accordance with a display operation to display said captured image;*...” Claim 31 is allowed as being a method claim of the apparatus claim 30 for the similar reason.

Regarding claims 19 & 25, the claims are allowed as being dependent of claims 18 and 24, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
